

I am writing to you concerning K-love.

K-love is an important part of our community. It is a positive asset to the people in Colorado because it provides family oriented programming. If K-love were to be replaced with another kind of programming it would effect so many listeners because K-love is one of a kind.

we have no other station like it in the state of Colorado. K-love has programming that encourages people of all ages to have a better quality of life. Thank you for your consideration.
